ABOUT THAT

By OLIVER GEDEIST

Japan soon will start substantial shipments of merchandise to the United States. Trade with other countries including former enemy countries, is a good thing, of course. There should be more than ever before. We need many of the products of other nations just as they need ours. International trade not only encourages business; it also encourages friendships. If we could stay out of wars long enough, friendships would grow until one nation would not be allowed by its people to engage in war with another. But that's too much to hope for from political bigwigs who hold to the ideas fostered in the days of our beginnings.

Tariffs

Politicians hold on to tariffs in some form. Yet tariffs imposed upon products of \$15 to \$20-a-month workers in Japan never will settle the question. For how can a man in Japan, making \$20 a month buy an automobile from this country made by workers getting from \$10 to \$20 a day? It simply cannot be done. If we were smart we would arrange to pay more for the things we import and insist that workmen in other countries get wages equal to our wages. Countries participating would bless this country and their people would be eternally grateful for the enlightened program. Then friendships would quickly grow, and would be so powerful that war would be wiped out. Make the world comfortable and the world will not want war. Tariffs can never do that.

Candidates

More and more it looks like able Mr. Taft will trail in the race for the GOP nomination for President. According to the Chicago Tribune another state, New Jersey, seems to be on the Stassen bandwagon. Pennsylvania's voters in their selection of Mr. Stassen probably influenced Jersey's switch. If Mr. Stassen can win a majority of votes in his Ohio campaign area against the Taft delegates, you will see the bandwagon loaded in a hurry. The man who can garner more popular votes than the able Taft and Dewey will be the next President, probably. Of course, Mr. Stassen must meet Mr. Dewey in Oregon and Mr. Taft in Ohio. If he loses, then his popularity will decline.

Even though Mr. Truman has come into much criticism, much of it unjust, he has no competition for the Democratic nomination. If he cannot win, his party cannot win with another man. But it is not safe to count out the Missourian too early. He has a strong come-back habit.

Strikes

Some of the railroad unions may throw another monkey wrench into our country. Should the men go on strike, they lose pay, the roads lose revenue, commerce will be stifled, millions of workers, many of them union members, will be stranded. The only place where joy will prevail will be in Moscow and in the hearts of pests in this country commonly known as communists. Good sense instead of false pride and selfish motives would keep payroll rolling and families comfortable. Both management and labor must use sense and give up extreme selfishness, or they will be brought under laws that few of us want.

We Will Live Through It

But we will live through troubles, whatever they may be. Maybe we won't live so comfortably, but with sunshine and growing things as reasons for rejoicing, we will have a smile whatever comes.

CHURCHES ASK
FOR RETURN OF
REV. COLEMAN

At the fourth quarterly conferences of Frankfort and Green Garden Methodist churches last Sunday evening, D. D., district superintendent, presiding the pastor of the two churches, the Rev. Lloyd Coleman, was by vote unanimously invited to return for another year. Appointments will be made by the bishop at the next annual conference.

Reports made by the different departments of the two churches indicated both to be in flourishing condition.

Mail Bag Burned

Many Mokena people stared unbelievably at their mail last Saturday morning. Some received part of their mail, partly burned. Some mail was totally destroyed.

The reason: A passing train mailman tossed off bags of mail and one fell into a container in which rubbish was being burned at the rear of Boleman's drug store.

Postmaster O'Brien was as much surprised as anyone when she saw the mail.

Emil Krapp, 78, one of the founders of the Mokena State Bank and a widely known citizen, died Thursday morning, April 29, in Silver Cross hospital following an extended illness.

Mr. Krapp was a native of Mokena, born in the home on Front street which he occupied all his life. He was born October 16, 1870. In 1892 he was married to Miss Selma Schaub, daughter of the Rev. Carl Schaub, at that time pastor of St. John's church. Mrs. Krapp died in 1937.

Mr. Krapp retired from active business, the buying and selling of cattle, 25 years ago. He kept up his interest in church and community affairs and in the sport of fishing. He continued as a director of Mokena State bank until his death.

His health began to fail during the past winter. Surgery and medical care could not restore him to health.

Survivors are three sons, Karl and Roy of Mokena and Milton of Cable, Wis., and six grand children and two great-grandchildren.

Funeral services were held at St. John's last Saturday, with the pastor, the Rev. William J. Rieman, officiating. Burial was in St. John's cemetery.

MOTHER-DAUGHTER BANQUET

The Women's Guild of St. Peter's Evangelical and Reformed church, Frankfort, is sponsoring a mother and daughter banquet this Friday evening, May 7 at 6:30. Mrs. Herbert Polkers will be the toastmistress. Mrs. Frank Marti will lead in prayer. The welcome will be given by Mrs. Richard Oetter, president of the Guild, and the responses will be made by a mother, Mrs. Bertha Nieland, and a daughter, Miss Deloris Minger. A solo will be sung by Miss Marion Batson and Mrs. Ed Vollrath will give a reading. The main speaker will be Mrs. Elsie Reichbach, YWCA secretary at Gary, Ind. The program will be concluded with a moving picture entitled, "Blame It On Love."

SLATE DANCE FOR MAY 15Water Works Shut
Down in New Lenox

Southsiders in New Lenox who depend upon water supplied by the Suburban Water company have been several days without water, the News-Bulletin has learned.

This is the second time within a few months that a callous attitude has been shown to these water users. Last winter, when the plant was shut down, the president of the company assured the Semmler Newspapers that preparations had been made to avoid shutdowns in the future for any length of time, since an auxiliary had been purchased for the express purpose of continuing constant supply.

There is said to be considerable feeling about the apparent callous attitude, and is considered likely that an issue will be made in view of the serious danger to health.

The shutdown, it was stated, was without any warning.

Frankfort-Mokena
Home Bureau Will
Keep National "Week"

Frankfort-Mokena unit of Home Bureau is observing National Home Bureau Week May 2 to 8 with two window displays. In Frankfort, a window display will be found at Luelles' Beauty Shoppe under the chairmanship of Mrs. George Elsner. In Mokena, Mrs. William Fair has arranged an exhibit at the Mokena State bank.

These window displays consist of a few of the many projects studied in Home Bureaus.

SCHOENECK FAMILY INJURED IN
CAR COLLISION; 2 OTHERS HURT

William Schoeneck of Tinley Park was sent to St. Francis hospital last Saturday in an unconscious condition and Mrs. Schoeneck was sent along with a broken wrist as the result of an automobile accident at Cicero avenue and 135th street.

Russell and Joyce, son and daughter, were injured, each receiving cuts and bruises, with Joyce having severe cuts about the face. Russell was driving the Schoeneck car at the time of the accident, according to reports. Son and daughter were thrown from the car

A pinochle tournament will feature the dance and social evening announced by the Mokena Volunteer fire department for Saturday night, May 15, in the Mokena school gymnasium, starting at 8 o'clock.

The annual affair, a spokesman said, is expected to be better than any previous affair given by the firemen.

Proceeds will be used, as in the past, for defraying the cost of operating the department, which is not supported by public funds.

For the dancing part of the program the department has secured the services of the Banas band, said to be a real toes twinkler.

The general plan of previous social evenings and dances will be followed, it was stated, with features to enlist the interest of the large crowd expected.

In a letter recently sent out, the committee in charge said: "If we are to operate as a successful and progressive organization, we must have financial support."

The committee consists of the following: Harold Cooper, Paul Lembke, George Warning, Peter Mancke; Barney Hostert; Glen Peterson, Lou Sass, John Scarth, Henry Yunker.

This is a date for the calendar, the firemen say, and features offered will draw a large attendance, it was stated.

Manhattan Petitions
To Join; Questions
To Be Answered Here

Keen interest in a high school unit district to include New Lenox and Frankfort townships with part of Manhattan township and the north section of Green Garden township was expressed Tuesday night at a meeting in Frankfort under the auspices of the Frankfort Lion's club.

The meeting was the result of action last month at a Lion board directors meeting, when a committee, with Burton Bredert chairman, was named to study and develop a plan whereby the public might be fully informed concerning school district reorganization. Including the "bugs"—the bad features with the good features.

Board of education members were present from many districts to discuss the general scope of the unit high school district for this area and to frankly develop the weak spots in the reorganization program as revealed in the survey committee's preliminary report some months ago.

At the meeting it was stated that the northern part of Manhattan township has presented petitions to the county superintendent of education in an effort to join the Frankfort-New Lenox reorganized district.

Representatives from Green Garden have called a meeting for Monday night in the Green Garden town hall for the purpose of discussing what areas in the township will want to join the New Lenox-Frankfort district as indicated in the preliminary report of the survey committee. Under the law, the survey committee's preliminary is not final and before the final report is made the first of June other areas may petition to join any other contiguous area.

It was stated that the southern part of Green Garden undoubtedly will want to be a part of the Peotone high school district, because of distances to be traveled by high school students. Green Garden township is now a part of the Peotone district. For the same reason, the distance to Peotone as compared to the north Green Garden-Frankfort-Manhattan-New Lenox area, many in the northern area of Green Garden prefer to come into this combination.

The meeting in the Green Garden town hall next Monday night, at 8 o'clock, is expected to iron out differences and to determine whether petitions will be circulated to bring a part of Green Garden into the New Lenox-Frankfort area along with Manhattan.

Common Objections

At the meeting Monday night, many of the objections commonly heard were discussed. It appeared from questions that the common belief that under the reorganization plan the board of education will shut down many of the schools and make much of the school property valueless has influenced many persons to object to the survey committee's report. This view is not justified, it was developed. Some one asserted that schools like Mokena's, Frankfort's, and New Lenox' would be washed up and become empty shells.

That such is impossible will be developed in a Question and Answer Box in The News-Bulletin, to be conducted by the editor associated with Principal John Oester of the New Lenox school.

The great majority of the district schools will be retained as a necessary part of the reorganization program. Better and more economical education is the chief aim of the reorganization plan, it was stated. A few of the very small schools will be closed, of course, where such closing will give better schools and more efficient instruction. The plan of the survey committee is to keep elementary grades, the little folks from traveling by bus more than 30 minutes' ride.

Plants like those in Mokena, Frankfort New Lenox will be essential to the general plans of the reorganization program.

Send Questions

As a public service, and complying with the desires of the members of the meeting Monday night, as well as with the wishes of the Lion club committee, effective immediately, the editor with Mr. Oester will answer all questions sent into this newspaper. Names will not be used—merely the questions stated followed by the answers.

The viewpoint of the two men who will answer submitted questions is that nothing is perfect; certainly the reorganization plan is not perfect. Neither man will try to persuade anybody, to do anything. It is our responsibility to answer directly and fairly all questions submitted. All questions should be addressed to The News-Bulletin, Mokena, Illinois.

Auxiliary Election

The Wm. Martin Auxiliary 725, Mokena, will have its regular meeting Thursday, May 6. Election of delegates and alternates will be held.

Ezra Leads A Revival
Lesson for May 9, 1948

GLANCING for a moment at our history, we see that in 536 B. C., 50,000 Jews were returned to Jerusalem from Babylon, and the temple was rebuilt; and 78 years later, Ezra returns with about 7,000 Jews to inaugurate needed reforms. Then came Nehemiah, 444 B. C., to rebuild the walls, and with Ezra to lead in a needed religious revival.

Dr. Newton

HAPPY TIMES WITH THE BIBLE
"FOR Ezra had prepared his heart to seek the law of the Lord, and to do it, and to teach in Israel statutes and judgments."

There was great need for a revival of religion, and Ezra knew that there can be no real revival until the people come back to God. He therefore read to them the statutes and judgments. Ezra read from the law of Moses from morning until midday, "and the ears of all the people were attentive unto the book of the law."

What would you think of the people being summoned into some public place today to hear the Bible read? But you say, we hear it read over the radio, and we hear it read in church, and we sometimes hear it read in the home. But do we hear it? And are our ears really attentive?

HEARING AND DOING GOD'S WORD

EZRA not only read God's word to the people, but he led them to do what they were commanded in the law. They went out to give portions to those who were in need. They came back to worship God. They began both to hear and do.

"Be ye doers of the word, and not hearers only," James 1:22.

It is positively dangerous to receive impressions from God and refuse to express what he has put in our hearts to do for him. Let me put it this way, we can become religiously intoxicated unless we go forth to serve.

LIVING OUR RELIGION

WHAT Ezra and Nehemiah led the people to do in the long ago was to put into practice what they heard—to live their religion. The late Gandhi was reported to have said, "I might have embraced Christianity, had Christians lived what they professed."

Let us keep clearly in mind that Ezra was first concerned in instructing the people according to all that God had said in the Scriptures. That comes first. We must have conviction about what is right. We must have a creed, but we are to remember that it is in daily living that we make our creeds effective.

WHAT IS A RELIGIOUS REVIVAL?

THIS lesson intends to reveal to us how a religious revival broke out in Jerusalem in the long ago, nearly 500 years before Christ was born. Well may we ask, What is a religious revival?

"Lord, send a revival, and let it begin in my heart." Revivals are prayed down, not talked up. We have fallen into the fallacy of speaking of revivals when some overnight spell-binder comes along and kicks up a big sensation. Before he leaves town, Pharissim is more rampant than ever. It is not until the Spirit of God moves upon the hearts of his people and rekindles in them a sense of sin, bringing them to true repentance, that we can have a real religious revival.

When men are convicted of their sins, they will say with Zacchaeus, "Lord, the half of my goods I give to the poor, and if I have taken from any man by false accusation, I restore him fourfold." When men begin to feel and talk and act like that, you have a real religious revival. And I repeat, such revivals are prayed down, not talked up. Now you are ready to read Psalms 119:9-16.

FRANKFORT

Mrs. F. J. Kohlhaugen
Phone Frankfort 2731

Mr. and Mrs. Harry Henderson formerly of Joliet have moved into the Pfaff apartment on Nebraska and Maple street.

Mr. and Mrs. Walter Bettenhausen, Mr. and Mrs. Albert Borms, Mr. and Mrs. Clarence Lenhart, Mr. and Mrs. Ruben Borms and family, Mr. and Mrs. Richard Borms and family of Peotone attended the 35th wedding anniversary of Mr. and Mrs. Fred Koehler at Blue Island Friday evening.

Mr. and Mrs. Clarence Lenhart entertained their card club Saturday evening. Mrs. Esther Subbert, Irvin Schellhase and Lucille Kleir received honors.

The next meeting will be in the Milton Subbert home.

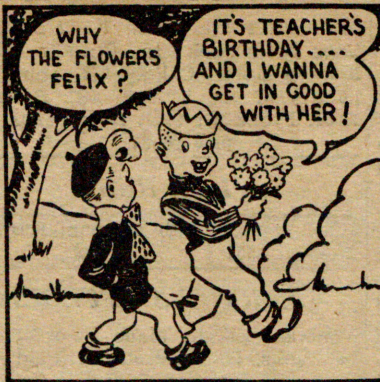

Mrs. Herbert Folkers attended a luncheon of a group of women with whom she had worked at the Wilson Packard Co., before her marriage. This group meets every so often for a get-together and have a real reunion.

Mrs. Minnie Klepper had a birthday Sunday. She had several callers during the day.

Mrs. Walter Bettenhausen entertained a group of relatives Sunday honoring her husband on his birthday. Guests were Messers and Mesdames Robert Koehler, Fred Koehler, Sr., Fred Koehler, Jr., Gilbert Koehler and family, Louis Bettenhausen and Mrs. Emma Koehler, all of Blue Island; Rueben Borms and family of Frankfort, and Mr. and Mrs. Harry Bettenhausen of Mokena.

Dr. and Mrs. Hedges, Mr. and Mrs.

LITTLE REGGIE

Hy Breidert, Mr. and Mrs. Fred Heuser, Mr. and Mrs. Walter Pfaff and Mr. and Mrs. L. Woodman motored to Dyer, Ind., to "Tiebels" for dinner Sunday, after which they returned to the Woodman home to spend the evening at cards.

Little Jerry Eisenbrandt is recovering from the measles.

The Brotherhood of St. Peter's church met Tuesday evening for the regular meeting.

Last Saturday night Mr. and Mrs. Kaminsky entertained their club members in their home in Joliet. Those attending from here were Messers. and Mesdames Robert Mitchell, Ralph Neiland, Howard Osmus, Teddy Bogdan, Robert Ferdin, and Paul Lambrecht.

At the Royal Neighbor card party at the village hall Friday there were 14 tables in progress. While the games

were on the fire siren interrupted them and all the men went to see where the fire was. Fortunately the fire was near by in the basement of Stanley Warning

home, where the furnace had exploded, but little damage was done. So they all returned and continued the games, ending with the two high scores going to George Kachel and Mrs. Bernice Kokal. Refreshments were served.

Frank Mark celebrated his birthday Friday night with all the Mark families present, a real jolly good time was had by all.

Mrs. Fred Krapf is critically ill in her home in Manhattan township. (More Frankfort. Items. on Another Page)

About Night Cooling...
an aid to Summer Comfort

The Public Service Company has long followed a policy of informing the public of new developments in electrical appliances for the home. In southern climates, an economical method of cooling the home at night has been used for a number of years. This method, adaptable to any apartment or house, is comparatively new to Northern Illinois. A discussion of this important step toward more comfortable year-round living in this area is timely now.

Comfort cooling, by driving out the hot stagnant air and replacing it with cool, outside night air, permits restful sleep even on the hottest nights.

Everyone remembers the periods of oppressive heat of last summer. In this area, the first hot spell can be expected any time around the first of

June, followed by heat waves at intervals until the end of September. Average temperatures for the past eight years show that Northern Illinois residents experience about two months of really hot weather every year - forty-six days with temperatures over 85°, and twenty-two days over 90°.

All day during the summer every part of a building exposed to the sun, absorbs heat. This heat is radiated through the roof and walls, raising the temperature of the air inside the building. The space below the roof frequently has a temperature of 135° on a hot summer day. The upper rooms of the building have a temperature as high as 10° above the outside temperature for as long as ten hours after sundown. To cool the home, this motionless, heated air must be removed and replaced by cooler, moving air from outdoors.

ADVANTAGES OF NIGHT COOLING

It is difficult to sleep or work when there is no movement of air to hasten evaporation of the moisture on the skin. On the other hand, it is possible to sleep restfully even on the hottest nights if air is moving freely through the bedroom window. The gently moving breeze of fresh air (produced by a night

cooling fan) rapidly absorbs heat from walls and ceiling, and evaporates moisture from the skin. In a few hours these fans can make you feel 10° to 15° cooler.

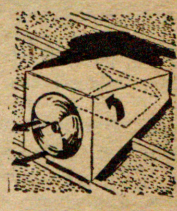

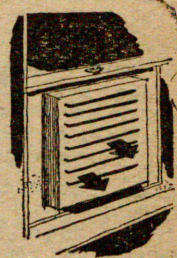

Night cooling fan installations are designed to change completely the supply of air in the home at least once every two minutes. The fan blades revolve slowly, gently circulating the air over a large area, rather than blowing in gusts and drafts. This method allows your entire living quarters to remain cooler all day.

TYPES OF INSTALLATION

For those who live in rented apartments or houses, where it is not practical to install

a night cooling fan permanently, the window fan is recommended. When installed, the fan drives heated air from all rooms on the same floor and fresh, cool night air is drawn in to replace it. Easily portable, the window fan can be plugged into any wall socket.

The night cooling fan installed in the attic of single-family dwellings, circulates the air throughout an entire one or two-story house. Methods of installing this equipment have

been worked out to meet successfully almost every type of home or apartment construction.

SIMPLE LOW COST OPERATION

For greater convenience and low cost of operation, a time-switch may be installed to give you fully automatic comfort cooling.

You can cool your home all night for less than the price of an ice cream cone. The experience of many users of these fans in the South over a period of years indicates satisfaction of the highest degree.

Electric appliances have done much to make the American Home more comfortable and convenient. The night cooling fan is an important advancement toward better, more pleasant living in Northern Illinois homes during the hot summer months.

Window Treatments in Home Pay Big Dividends in Cheer

By Ertta Haley

WHAT else that costs so little and still means so much can you do for a room than redecorate your windows? All other investments like new furniture, rugs or knick-knacks can run into a lot more dollars than curtains or draperies, and yet their effect is not as great.

You can achieve an absolutely new room with window treatments of various kinds, and if you have a lot of remnants plus imagination, you actually can redecorate with just windows alone.

If you can't embark on redecorating in a big way, see what a bit of fringe or ruffle will do! Or, re-dye some of your sheers for the kitchen or bedroom. You can even dye feed sacks for very little and make tiered curtains for kitchen or hall.

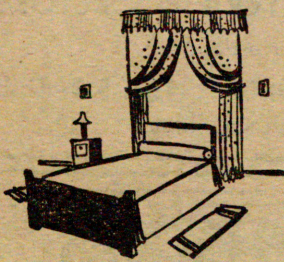

Take a critical look at the windows in your home and ask yourself these questions:

1. Do the curtains or draperies flatter the window and room?
2. Do they darken the light room or lighten the dark room?
3. Is the color flattering to the room and its contents?
4. Is the style in keeping with the general effect?

Ruffles Will Provide Cheery Effect in Room

Ruffles may be used in kitchen, bedroom, playroom, sun porch or an informal sitting room. If you have ruffles, and you want more for a more pronounced or cheery effect, they're easy to make and add to curtains you already have.

If you are using plain half curtains—let's say on the lower half of

Place curtains over bed . . .

the window—add a narrow ruffle to the top of the window either in the same material and color as the curtains or in a contrasting solid or print of cotton remnant. Be sure you pick up one of the colors in the room when doing this.

If you have some windows without curtains, you can make the room less barren-looking by using a two-tiered ruffle at the very top of the windows. Make one ruffle of solid color and the other of a contrasting print. Here again, use colors you already have in the room.

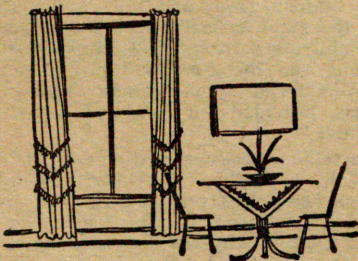

If you are using sheer curtains in some part of the house, you can add rows of ruffles to sheer panel curtains, tinting them all to the same curtain shade. This is an easy way to get expensive looking curtains that cost little more than time. You may use good portions of other sheer curtains for the ruffling.

For a window—usually a small one in the hall—where you want to shut out a poor out-of-doors scene, use solid color at the window and make several rows of wide, full ruffles.

Make Pretty Windows With Feed Sacks

Feed sacks, if dyed and pressed carefully, may be used for playrooms, children's rooms, bathroom or kitchen.

One way to do this is to dye them and stitch together for the neces-

sary length, placing a ruffle at each seaming. Another way is to dye them in several colors for a rainbow effect and seam together. The effect is so good that it quite belies its inexpensive origin.

Unusual Effects Possible With Use of Color

Here's a good idea for the living or dining room. If you have venetian blinds, dye the tapes and paint the venetian blind slats with one of the room colors. Dye the drapes a second color, and then use two sways at the top, one dyed to match the tapes, another to match the draperies.

A dramatic effect can be achieved by what is known as tie-dyeing. To do this, run basting stitches across the width of the curtain, dividing into four sections, the largest at the bottom. Pull up the thread and wrap around the curtain and tie tightly. In a dye-bath made up of one fourth of the dye, dye the entire curtain a very pale tint of the color you have chosen. Add a sec-

Casual Gloves

White is always right for spring gloves and this year, white pigskins are being shown to go with suits for casual and street wear. Wearing a pert bowler and white "stock," this young lady completes her costume with white, finger-free pigskin shorties. These American-made gloves have black saddle stitching and a "V" opening at the wrist.

ond fourth of the dye and hold the top of the section out of the bath.

For the third fourth of the dye, keep the two top sections out of the bath. Add the remaining dye for just the bottom section.

If you desire a variegated dye effect, use the above dyeing technique, but do not stitch and dye the material. With each additional dipping enough color will be absorbed by the panel above to give a variegated effect.

Unusual Windows Benefit With These Tricks

If you have two small windows where the effect would be better with one large window, cover the separating area of the wall between the two windows with another drapery, hanging your swag over the center drapery, but under the two outside ones.

Make a small window look larger by hanging the draperies on the wall beside the window, leaving the entire window area exposed except for the frames.

Here's a lovely way to treat bay windows. Frame the bay window with a deep ruffle and two draperies only, using Priscilla curtains at each window. Dye ruffle and draperies to room color and tint the Priscillas one of the curtain shades.

Give your bedroom more depth by framing curtains at the head of the bed to make it appear as though a window were there.

Selection of Colors Plays Major Role in Renovation

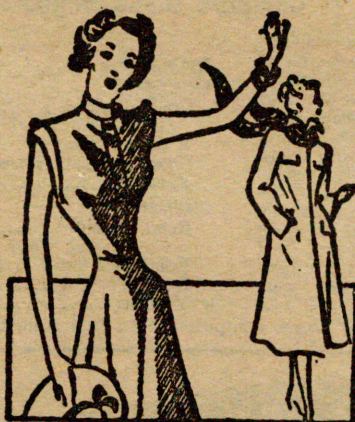

In renovating your rooms for the spring and summer, selection of colors will play an important role. It spells the difference between a dull, lifeless room and one that is cheerful and livable.

There are three primary colors—red, yellow and blue. All others are formed by combining these three in varying degrees and by addition of black or white to darken or lighten the value.

To make a small room appear larger, utilize the cool or receding colors, such as the light blues, grays, greens, ivories and off-whites. The warm or advancing colors, such as red, terra cotta, rose, brown and tan, have the opposite effect, appearing to reduce the size of the room.

Rooms which are too large can be brought together by using big, over-scale wallpaper patterns in warm colors.

Be Smart!

Two new ideas are sketched in the outfit here. High color contrast and a revival of the long linen coat are very new. The dress with its sleek mandarin collar and virtual sleevelessness is in mauve linen, while the coat is a rich green. The linen is, of course, treated for crush resistance.

From where I sit ... by Joe Marsh

"What's Your Opinion, Mister?"

Fellow from one of those public opinion polls was in Andy's Garden Tavern, querying Andy's patrons on everything from that "new look" to the next election.

And it occurred to me that there's nothing more typically American than collecting other folks' opinions, as well as giving out with one's own. And from where I sit, it's a mighty healthy habit.

So long as people can discuss both sides of a question that comes up—whether it concerns short skirts versus long, beer compared

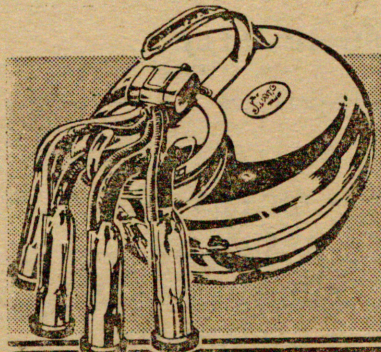

with cider, or the larger issues of party versus party—we're sure of the individual liberty that has made this country great.

For it isn't differences of opinion that matter. The important thing is tolerance for differences of opinion—whether they affect the right of an individual to vote, to speak his mind, or enjoy a glass of beer. They're all parts of the freedom that we cherish!

The MIDWESTERNER

by Robert Casey and W. A. S. Douglas

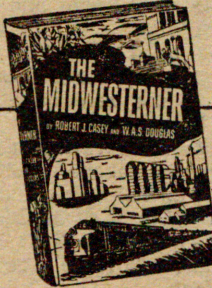

This is the story of Dwight H. Green, the Midwesterner who believes that the preservation of the pioneer spirit is the hope of America and the world... that the destiny of our country lies in its system of free-enterprise.

Read the story of how this great prosecutor cracked Al Capone's famous empire-outside-the-law and succeeded in the apparently hopeless task of sending him to a Federal Prison.

Dwight H. Green is a man who has guided the government of Illinois for the past 8 years with uncompromising honesty and integrity, a man "who cannot be bullied or bought, who understands the state's problems and does something about them."

Still echoing the quarterback spirit of college days the Midwesterner never hesitates to plunge directly into every job... calling signals yet still doing his share of the blocking and tackling. Remember his drive and skill in legislative battles over the Illinois soldier bonus bill and the Congressional reapportionment act? Where seven previous governors had failed for 46 years, Dwight H. Green succeeded.

THE MIDWESTERNER is a thrilling account of our own governor's meteoric rise from a struggling lawyer to the highest office in the state. Every citizen should read it.

Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employees have accepted. They have called a strike to get more!

Unions refuse rules discussion

Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified

Engineers and firemen are among the highest paid of all employees in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board,

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

They have dictated a paralyzing railroad strike.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15½ cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

CARD OF THANKS
We wish to extend our heartfelt gratitude to relatives, neighbors and friends for the many expressions of love and sympathy shown us in the recent illness and death of our dear father and grandfather, and our appreciation for the comforting words of the Rev. William J. Riemann and the consoling music of Mrs. M. Shaw and Mrs. D. Maue; our sincere thanks also for the many beautiful floral tributes and Church Memorials, to those who donated the use of their cars and to the ladies who took charge at the church parlors.

The Wise Old Bird Says:
"DON'T BE LATE IN '48!"

and that means:
"Service Every Farm Machine Ahead of Season in Our Shop!"

There is still time for you to get on our Early Bird Schedule for Blue Ribbon Service, but please don't delay.
Our list is filling up with the names of farmer customers who are scheduling machines for service ahead of every season.
Your tractor may be ready now, but how about your plow, planter, mower, harvesting machines and other equipment?
Look over your machines or ask us to come out and do it. Whether simple adjustments or complete overhaul are needed, we have the skilled mechanics and precision equipment to put farm equipment in first-class shape.
